EVENT NAME: Cambridge Harvest Festival

LOCATION: Cambridge Elementary School

DATE(S): October 25

TIME: 5:00-7:00PM

Intuitive Surgical Open House

The RoboVikes have been invited to Intuitive Surgical's Open House! This is an exciting opportunity where some of our team members will tour their facilities and participate in engineering activities.

Capital City Classic

For the past few weeks, the RoboVikes have been preparing for the upcoming Capital City Classic. This is an off-season competition where we will compete in the same game as the 2019 season, Deep Space, with our robot, Valkyrie. Also, this year, some members from our team will be presenting workshops about using OnShape and the pros and cons of NEO Motors. Come support us at Pleasant Grove High School on October 20th!

Cambridge Harvest Festival

At the Cambridge Harvest Festival, we will be helping the elementary school set up game booths and play games with the kids.

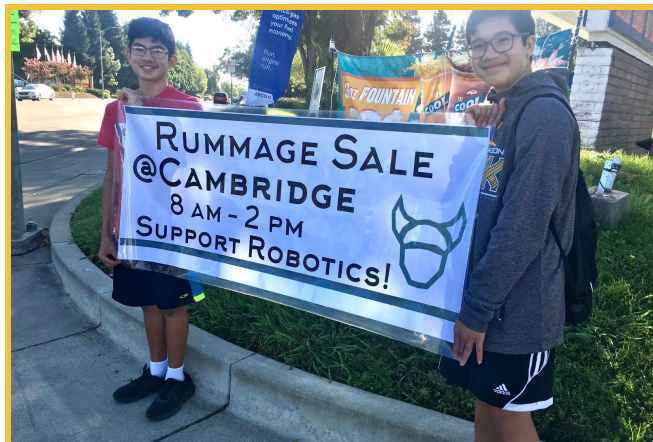

Important September Events

Kids Who Code Club

The RoboVikes were super excited to work with the Academy of 21st Century Learning by mentoring the 20 students in their Kids Who Code Club. Throughout the day, students in grades 3-5 learned the basics of block programming and problem solving through hands on activities and computer programs. Older students in grades 6-10 learned about programming more in depth while still participating in the hands on activities through a computer program.

Rummage Sale

Our annual rummage sale was super successful! Our team raised about \$1700 for our upcoming competition season. All of the unsold items were donated to the Opportunity House in Vacaville. A huge thank you to everyone who donated to our team!
